SC88 Multipurpose Cleaner

A cleaner for every need

Effective on all washable surfaces throughout home eg. tile, marble, wood, tubs, doorknobs, cabinets, kitchen bench, cooking stove, cooking utensils, glass, electrical appliance surfaces etc.

SPECIAL FEATURES

- Concentrated formula and cost saving, one bottle of SC88 MPC (1L) can be diluted into 40 bottles of 500ml dilution. Dilution of product, 1:20 is used for heavy/spray cleaning.
- Effective to remove stubborn burnt food stain, oil, grease, food gravy and other soil stains.
- Organic solvent free, thus, it is non-flammable, not toxic, not corrosive, not abrasive (lead to surface protection on metal and coated surfaces), no unpleasant odor, environmentally friendly, does not require special packaging.
- Neutral pH, easy to handle, safe on all surfaces and mild to skin.
- Contains M.O.F for persistent and broad spectrum antimicrobial activity.
- No rinsing required and easy cleaning. Rinsing and rubbing are only required when concentrated liquid is used to tackle very tough stains.

AVAILABLE PACK SIZE

1 litre

DIRECTIONS OF USE

Normal cleaning: ¼ cap (12.5ml) add to 3 litres of water

Heavy/spray cleaning: ½ cap (25ml) add to 500ml of water

Very tough stain: Use full strength. Rub in well and rinse off

SC88 Dish Wash

Cleans, shines and sanitizes

Specially formulated for cleaning kitchen utensils by removing the toughest stains, leaving your utensils sparkling clean. The new antimicrobial ingredient will protect your family from harmful germs.

SPECIAL FEATURES

- Even after dilution, SC88 Dish Wash can still perform well in cleaning your dishes and kitchen utensils.
- Effectively enhance the absorption of greasy soils from your utensils and remove it with just a few rubs.
- Contains M.O.F. provides a long-lasting broad spectrum of antimicrobial activity on dishwashing utensils and also your hands.
- Dissolve and disperse mineral salts precipitates, so that it will be easily removed during rinsing, leaving your dishes sparkling clean and spot free.
- Condition and moisturize your hand while you do the dishes.
- Does not contain any toxic solvent, making it a totally environmental friendly product.
- With fresh lemon lime fragrance, makes your entire dishwashing experience enjoyable.

AVAILABLE PACK SIZE

1litre

DIRECTIONS OF USE

Depending on the greasiness of the dishes, SC88 Dish Wash can be used directly or it can be diluted with water in the ratio of 1:1, 1:2, 1:4, 1:5 or 1:8.

SC88 Laundry Compound

Laundry care to preserve and protect your fabric

Specially formulated for effective cleaning when recommended measurement is used. The new antimicrobial ingredient will protect your family from harmful germs and leaves your fabric feeling comfortable and fresh.

SPECIAL FEATURES

- Highly concentrated formula powder that is effective when a small quantity is used, thus making it very cost effective
- Possesses good degreasing and cleaning property that clean fabrics effectively.
- Able to penetrate deep into fabrics, therefore making it excellent in removing stains.
- Contain M.O.F that provides a long-lasting broad spectrum of antimicrobial activity on fabrics and helps reduces malodor, thereby bringing consumer added comfort and freshness. M.O.F. is responsible in disinfections and also ensuring effective biocide effect to remove unpleasant odor during prolonged soaking.
- Contains enzyme, a tri-enzyme formula that consists of protease, amylase and cellulase. The objective of incorporating enzymes in laundry compound is to hydrolyze or breakdown stains into soluble products that can be washed away easily. All three enzymes works wonderfully in removing stubborn stains without destroying the fabric and its color.
- Prevent soil from resettling onto cleaned fabric. Thus, the soils will float along in the water and rinse away. This antiredeposition property is able to carry to the next level wash, which prevent soil redeposit more effectively.
- The functions of this agent are to soften water and inhibit calcium or magnesium salt precipitation on fabric. In other words, it prevents fabric graying and subsequently prolongs the lifespan of your clothes.
- Inhibit oxidation reaction of iron, which leads to rust. Prevents metal surfaces of washing machines and other metal ornaments found on clothes, such as buttons and zippers from rusting.
- Soluble in any type of water and is suitable for hand wash as well as machine wash.
- Refreshing floral scent that leaves your clothes smelling fresh and clean after every wash.

AVAILABLE PACK SIZE

1kg

DIRECTIONS OF USE

- Use $\frac{1}{2}$ scoop of powder for a 5 kg wash load using a front-loading washing machine.
- Use 1 scoop of powder for a 5 kg wash load using a top-loading washing machine.
- Use $\frac{1}{4}$ scoop of powder for a 5 kg wash load using hand washing.
- Double the quantity for heavily soiled laundry

SC88 Laundry Detergent

Washing enjoyment while removing tough stain

This newest hero in town can fight all evil dirt. Our hero has special powers - M.O.F. - that can kill germs in every wash. He will defend your clothes from dirt anti-redeposition during washing and protect metal surfaces like buttons, zips and washing machine from rust. SC88 Laundry Detergent, the true hero of your clothes! Excellent for cleaning food stain, oil and grease, pigment stain.

SPECIAL FEATURES

- A small quantity is enough to do a full load of laundry, thus making it very cost effective.
- Able to clean and remove food stain, grime and soil effectively.
- Prevent soil from resettling onto cleaned fabric. Thus, the soils will float along in the water and rinse away. This antiredeposition property is able to carry to the next level wash, which prevent soil redeposit more effectively.
- Contains M.O.F that provides a long-lasting broad spectrum of antimicrobial activity on fabrics and helps reduces malodor, thereby bringing consumer added comfort and freshness. M.O.F. is responsible in disinfections and also ensuring effective biocide effect to remove unpleasant odor during prolonged soaking.
- It is formulated with excellent wetting property that ensure rapid penetration of fabric layers for that extra cleaning ability.
- The functions are to soften water and inhibit calcium or magnesium salt precipitation on fabric. In other words, it prevents fabric graying and subsequently prolongs the lifespan of your clothes.
- Inhibit the oxidation reaction of iron, which leads to rust. Prevents metal surface of washing machines and other ornaments found on clothes, such as buttons and zippers from rusting.
- Gentle formula, tough on stains but gentle enough to preserve your fabric and hand.
- Fresh floral smell, which leaves pleasant scent on fabric after each wash.

AVAILABLE PACK SIZE

1litre

DIRECTIONS OF USE

- *For washing machine wash, use ¼ cap of liquid for small wash load, use ½ cap of liquid for medium wash load and use 1 cap of liquid for full wash load.*
- *For hand washing, use ¾ cap of liquid with 5 litres of water.*
- *For heavy stains, pour liquid onto the stain and rub. Wash with other clothes.*

SC88 Laundry Softener

Soften, prolong and protect

The faithful Sidekick will also zap germs and kick away static. He brightens your clothes, keeps them comfy soft and makes them easier to iron. For good measures, he will leave your clothes smelling fresh as a rose after wash.

SPECIAL FEATURES

- Highly concentrated formula softener that is effective because a small quantity, only ½ cap in final rinse, is enough for a full load of laundry, thus making it very cost effective.
- Does not only keep your laundry fluffy soft just after washing but also able to maintain fabrics softness, giving fabrics a smooth, non-greasy and comfortable feel.
- The M.O.F in SC88 Laundry Softener provides a long-lasting broad spectrum of antimicrobial activity on fabrics and helps reduces malodor, thereby bringing consumer added comfort and freshness.
- Contains optical brightener that provides brightening effect on clothes, making white clothes whiter and color clothes brighter.
- Contains a new easy ironing ingredient, which effectively reduces wrinkles and creases on clothes. Thus, helps you save effort, time and energy.
- The superior rewetting properties that significantly increase fabric hydrophilicity and retaining the fabric's moisture retention capacity. Therefore, your towel will remain soft and absorbent wash after wash.
- Lubricates fibers and makes the surfaces of your fabrics slightly conductive, which reduces or prevents static cling built-up.
- Uses natural softening agent in its formula, therefore, making it safe and less irritating to the skin.
- Gives a fresh floral smell, which leaves a pleasant flowery scent on dried fabric.

AVAILABLE PACK SIZE

1 litre

DIRECTIONS OF USE

- For machine wash, add ½ cap of softener into water at final rinse or into fabric softener dispenser at beginning of wash cycle.
- For hand wash, add ¼ cap of softener to final rinse water.

SC88 Floor Cleaner

Cleaner, shining and safe for every floor need

Suitable for various types of surfaces throughout the house, including tile, parquet, marble, terrazzo, cement, etc.

SPECIAL FEATURES

- It is effective even when small quantity is used, making it very cost effective.
- Effectively removes soil and grease on your floor surface, leaving it clean and shiny.
- Suitable for various types of surfaces throughout the house, including tile, parquet, marble, terrazzo, cement, etc.
- Contains M.O.F. for persistent and broad spectrum antimicrobial activity.
- With wax emulsion in the formula will coat a film on the floor surface. These coated films not only improve gloss, shine and smoothness of the floor but also provide a protection barrier to soil and other contaminants.
- This antiredeposition agent helps to trap soils and grease particles during cleaning, thus preventing them from resettling to the floor.
- Eliminates static charges, thus preventing dust or any charge particles to stick on the floor.
- Neutral pH, safe and gentle on all surfaces and also mild to your delicate skin.
- Does not contain any toxic solvent, making it a totally environmental friendly product.
- The natural and refreshing fragrances of citrus pine not only create a pleasant atmosphere in your house, it could also repel and reduce the infestations of insects.

AVAILABLE PACK SIZE

1 litre

DIRECTIONS OF USE

- For normal stains, add 1/4 cap of SC88 Floor Cleaner to 1/2 pail of water.
- For heavy / smoke & oil stain, add 1/2 cap of SC88 Floor Cleaner to 1/2 pail of water.

SC88 Toilet Bowl Cleaner

Powerful germ killer and stain remover

It is an economical Toilet Bowl cleaner, because it is concentrated; a little is enough for one wash. Has antimicrobial agent that ensures maximum cleanliness.

SPECIAL FEATURES

- Highly concentrated formula cleaner that is effective even when small quantity is used, making it very cost effective.
- The inorganic acid makes the foundation of this strong toilet bowl cleaner. It effectively removes tough stains, rust and mineral deposits from your toilet bowl, leaving it clean and shiny.
- Removes calcium build up from all porcelain surfaces. So, it is suitable to use on your porcelain sinks and tubs too.
- Contains acid that acts as a disinfectant. It effectively kills germs and bacteria to maintain the hygienic condition of your toilet bowl. While killing the microorganism, it actually gets rid of the malodour as well.
- Inhibit mineral salts precipitates, so that it will be easily removed during cleaning, leaving your toilet bowl sparkling clean and spot free.
- With pleasant floral fragrant, leaves a refreshing scent in your toilet.

AVAILABLE PACK SIZE

500ml

DIRECTIONS OF USE

Leave overnight and flush clean. For maximum effect, brush entire bowl before flushing.

Motobest Engine Oil

Metal treatment, additives and synthetic oil

CNI MOTOBEST ensures a more powerful and smoother engine performance. This premium engine oil contains high-grade metal treatment, additives and synthetic oil. With this new formula, its anti-wear ability and high temperature oxidation stability are enhanced, thus making it more durable and reliable. Specially formulated for use in both gasoline (petrol) and diesel engines. Highly recommended for all engines such as fuel injection, turbo-charge, multi-valves, twin cam and carburetor, including motorcycles.

SPECIAL FEATURES

- Minimizes engine wear during start up, ensure optimum engine protection against wear.
- Oil change duration two times longer than normal oil.
- Enhances engine performance and power.
- Ensures smoother, cooler and quieter engine.
- Protects against internal corrosion.
- Keeps engine running clean and efficient.

Motobest Car Shampoo

Leaving your car shinning clean

CNI Motobest Car Shampoo provides all the special care that your car needs. It is effective in removing dirt and the special concentrated formula is added with wax to give your car the extra shine wash after wash.

SPECIAL FEATURES

- Highly concentrated formula for maximum savings.
- Contains efficient cleaning property that removes stubborn dirt and grime effortlessly, leaving your car shining clean.
- Contains wax to protect the car paint.
- Antistatic property minimizes dirt from resettling after wash.
- pH neutral formula, making it safe for your car's surface and skin.

AVAILABLE PACK SIZE

1litre

DIRECTION OF USE

- For light dirt, add 2/3 cap of Motobest Car Shampoo to ½ pail of water.
- For stubborn stain, add 1¼ cap of Motobest Car Shampoo to ½ pail of water.

Waterlife System

Advanced Live Water, Quality Living Enhancer

CNI WaterLife System consist of 7 main filters namely Ceramic filter, Resin Softener filter, Granular Activated Carbon filter, Bio Ceramic filter, Tormouline filter, Activated Carbon Block filter and Nano Anti-Bacterial Ceramic filter, a perfect combination of purification and activation that provides 100% filtered and purified water that meets the standard. Drinking CNI WaterLife System's purified water helps cleansing your body and lets you enjoy activated water for good health.

SPECIAL FEATURES

- Small water molecules cluster for better absorption
- Economical and pragmatic
- DIY concept-easy to install and operate
- Contains trace minerals
- Generate energy and Qi
- Presentable and practical

WAYS TO OPTIMISE CNI WATERLIFE SYSTEM'S FILTERED WATER

1. Your beverage tastes better when mixed with CNI WaterLife System's filtered water.
2. Nutrients in food supplements are better absorbed and effective when taken with CNI WaterLife System's filtered water.
3. The results of skin care products are more prominent with CNI WaterLife System's filtered water.
4. Food stays fresher and cleaner with CNI WaterLife System's filtered water.

1 CNI WATERLIFE CERAMIC FILTER

- Hollow core and porous wall with filtration pores 0.9 absolute micron in diameter produced at temperature over 1000°C.
- It removes mud, sand, rust and other particles in water and this filter meets the safety standard. Tests have shown that pores measuring 0.45 to 1.0 micron can eliminate 99.9% bacteria.

2 CNI WATERLIFE RESIN SOFTENER FILTER

- Its ion-transforming function softens water and stabilises ions in water, eliminates heavy metal and carcinogens for softer and better tasting water.

3 CNI GRANULAR ACTIVATED CARBON FILTER

- Made from carbon granulars of coconut shells that are able to degrade chemicals in water, removes bad odour from chlorine and pesticides, eliminates colourings and restore the freshness and taste of water.

4 CNI WATERLIFE BIO CERAMIC FILTER

- This filter generates and emits far infrared magnetic waves and the resonance produced between this magnetic waves and water molecules enhances water's oxygen capacity, energy, activates water molecules and breaks down water molecule clusters into smaller clusters producing softer, living water that are easily absorbed by our body to energise it.

5 CNI WATERLIFE TOURMALINE FILTER

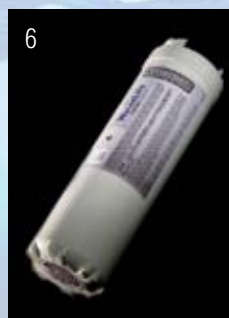

- Made from Tourmaline that is able to emit negative ions and natural physioelectric.
- Regular consumption of this filtered water helps balance up negative and positive ions in our body resulting in the 'Yin and Yang' equilibrium, enhances blood circulation, vitality and strengthens our immune system.

6 CNI WATERLIFE ACTIVATED CARBON BLOCK FILTER

- Produced by compressing very fine pulverised activated carbon with a binding medium and fusing them into a solid block with superior absorptive capacity and kinetic efficiency.
- It purifies water for the second time and removes chemicals, toxic gases, radioactive residues and other contaminants completely.

7 CNI WATERLIFE NON ANTI-BACTERIAL CERAMIC FILTER

- This ceramic filter is a product of advanced nano technology to further retain the high energy of CNI WaterLife System's filtered water and to ensure that the water is free from microorganisms.
- The nano ceramic particles have very large relative surface area to increase oxygen capacity in water, thus increasing the ability to eliminate bacteria and fungus.
